## NeoZombieGeneration Lyric no1

Von Shiroy\_Haze

Just as the clock ticks inside my mind  
I hear you, white brother  
Just as I'm falling down the whirling wheels  
I see you, smiling brother.

I slowly get it, as I'm sitting  
I feel you, green brother  
The one that never dies right in my ear  
your tears are touching my skin  
I'll wait for you, my red brother  
I'll wait for you

This dream is scarring me,  
daddy, wake up  
My cupboard was just nailed  
by you, my dear brother  
When I'm on my knees, that's it,  
I'll sin for you, my holy brother

I know, world's not enough  
I'll march for you, burning brother  
father, sister, don't speak my mothertongue  
Can't see you, black brother  
At the end you left me,  
can't see you, white brother.
