

sitting waiting wishing

Von Shiroy_Haze

I know, I'm sitting here,
and still think about
why I do.
I once got hit
so deep and hard
And no one ever tried
to pick me up.
To reach my hand
so dirty and black
was too much to demand.

so guess what!
You're not the only one
in a long row of people
hating me the same.
So is it such a surprise for you
I began to hate myself too!?

See, all you ever loved
was yourself.
Cuz that's just a causal fact.
Not a thing that's strange,
cuz most people do.

see, you never gave me a chance
I know,
you still think you did.
what shit.
but don't worry!
You never had to give me one
so you don't need to pretend
like you did.

So I'm still sitting here
Scared like hell.
Will you keep on taking more?

And more and more and more!?
Though I tried not to give you anything anymore!?
Till you have everything
And take the rest of me.
Stormbaby scarlet,
You blow out my last light
well, that's very easy
it is black as night.
