

# MY WISH

Von Crowley

just wanna dream...  
wanna fly away with my memories...  
to places no one can reach...  
no one can touch...

only the music of my heart is around...  
wanna share this place...

wanna give you a hand...  
want you by my side...  
to show you all of me...

all my fears...  
all my hate...  
all my dreams...  
all my memories....

just wanna let you know,  
how much you mean to me...  
how much i miss you when you're not around...

i just want to hold you...  
hold you tight...  
never let you go...

just wanna touch your lips again...  
whisper to your heart...  
I love you...

hear your breath...  
fell you...  
whisper to your heart...  
I love you...

never let you go...

just wanna make you happy...  
with all my strenght...  
with all my love...

even if you leave me, as long as you smile  
and you are happy my wish is fullfilled...  
and i'll be okay...
